C. EVENT SUMMARY

Objectives:

- To promote holistic development by emphasizing intellectual, emotional, social, and moral growth.

- **To encourage reflective and critical thinking** among learners for better decision-making.
- **To create awareness about value-based education** and its importance in shaping responsible citizens.
- **To inspire students** to approach learning with curiosity, purpose, and a desire for personal transformation.
- **To discuss the integration of technology** in education while maintaining human values.

Programme Overview:

The talk conducted as a part of **National Education Day Celebration** was designed to help participants reimagine learning as a transformative process rather than mere information acquisition.

Dr. Kim J Seelan began the session with an introduction to the evolving meaning of education, followed by an insightful discussion on the need for enlightenment in modern learning environments. He highlighted the importance of nurturing clarity, awareness, and moral integrity among students.

Throughout the program, emphasis was placed on holistic learning, value-based education, and the role of educators in fostering an enlightened mindset. Real-life examples, reflective questions, and interactive discussions helped participants understand how enlightened education can shape responsible, empathetic, and innovative individuals.

Outcomes:

The session concluded with key takeaways on integrating values, wisdom, and reflective practices into everyday teaching and learning.

Participants left with a renewed perspective on how education can empower individuals and contribute to a more conscious and compassionate society.
